Top Students

PROFILE INFO

As a web developer and graphic designer, I have a strong background in creating visually appealing and user-friendly websites. I am proficient in various programming languages and design software. In addition, I have a keen eye for design and am able to create visually striking graphics that effectively communicate a brand's message. I am highly motivated, dedicated, and always eager to learn new technologies and techniques to improve my skills.

EXPERIENCE

2021 - 2022

Kapital DAO

Freelance Graphic designer

As a Freelance Graphic Designer, my responsibilities included working closely with clients to understand their design needs and create visually appealing designs that effectively communicate their message. I was responsible for creating a wide range of design materials such as logos, posters, social media graphics, and Info graphics.

2017 - 2019

Abragon's Medical Supply

Sales Representative

As a salesperson, we are responsible for building relationships with customers, identifying their needs, demonstrating the value of our products or services, negotiating prices and terms, and ultimately closing sales.

EDUCATION

2022 - 2023

Full stack web developer

Kodego Bootcamp

2022 - 2023

Data Analyst

Refocus Bootcamp

2010 - 2014

High School

Angono National High School
